PROFESSIONAL SUMMARY

Dependable and hands-on installation and assembly professional with strong mechanical aptitude, attention to detail, and experience working on fast-paced production and installation tasks. Skilled in reading basic technical instructions, performing repetitive assembly operations, installing components, and maintaining tools and small equipment. Demonstrates strong teamwork, good time management, and a safety-first approach. Ready to contribute immediately to manufacturing lines, installation crews, or assembly workshops.

KEY SKILLS

- Assembly line operations & repetitive task efficiency
- Component installation, fastening, and basic fitting
- Hand & power tools: drills, impact drivers, wrenches, saws (basic)
- Quality checking and defect identification
- Basic mechanical troubleshooting & preventive maintenance
- Materials handling, packing, and staging
- Safety practices, PPE use, and workplace cleanliness
- Teamwork, punctuality, and ability to follow instructions

WORK EXPERIENCE

Assembly Technician, Local Manufacturing (Contract)

Apr 2023 - Present

- Executed repetitive assembly tasks on small-to-medium production lines, following step-by-step assembly instructions and quality checklists.
- Assisted with material handling, packaging, and preparing finished goods for shipment.
- Maintained a clean and organized workstation and followed safety and PPE procedures.

Installer / Helper - Installations & On-site Projects

Jan 2022 - Mar 2023

- Supported installation teams installing fixtures, window frames, and light assemblies at residential and commercial sites.
- Measured, positioned, and secured components using hand tools, drills, and basic power tools under the supervision of experienced installers.
- Assisted with inventory checks and kept job sites tidy to reduce setup and teardown time.

Maintenance Assistant, Community Projects & Volunteer Work

2020 - 2022

- Performed equipment checks, basic repairs, and preventive maintenance on small machinery and tools.
- Coordinated with volunteers to complete installation-style tasks such as building trellises, assembling raised beds, and mounting structures safely and efficiently.

EDUCATION

- Bachelor's Degree in Business Intelligence & Statistics | Ibn Zohr University - Agadir | 2022
- Diploma in Information Systems Development | BTS Center - Guelmim | 2021

AVAILABILITY

Available for immediate start, full-time or contract positions. Open to relocation and flexible shifts (early mornings, weekends).
